30th April 2010

Sean Alan

The word "Cancer" is one of the most feared diagnosis that one can receive from ones' doctor and despite enormous sums being raised from a huge magnitude of Cancer Charities around the world, and despite major advances in treatment and knowledge, much still needs to be done to find the ultimate cure and to give cancer sufferers more hope and encouragement.

I was delighted to hear of your aim to play all of the golf courses in Scotland by 2013 and thus to raise funds for cancer research and I wish you and your wife Polly as well as your golfing colleagues Craig Watson and Stu Fleming every success in your attempt to achieve your ambition.

Good luck and good golfing!

Yours sincerely

COLIN.M.BROWN
